

Asia/Pacific Airport Coordinators Association (APACA)

Agenda Item 5-1

Renewal of APACA Database

23rd APACA meeting
22 June, 2022

Renewal of APACA Database (1)

Background

The APACA Database was discussed in the first APACA Meeting (2010, November) through the third APACA Meeting (2011, November). And it was agreed to establish the Database, which contains the information of head coordinator, the list of airports coordinated or facilitated, the picture of terminal building, the specification of terminal building and the statistical data of annual movements, annual passengers and annual cargo.

These data are shown in JSC web site under the submenu of APACA with APACA articles, member list and meeting minutes.

Currently this information is available at JSC web site. However, the data base has not updated until today. Those data have become out-of-date.

Proposal

So renewal of APACA Database is proposed as follows, bearing in-mind that the maintenance of the information is easy and the main purpose of the APACA Data Base is APACA members getting to know each other to make the communication between the members more smoothly.

The proposed data, which should be contained in the new database are as follows;

Information regarding the head delegates, organization, e-mail address, web site address, and coordinated/facilitated airports, and other supplemental information.

Welcome to Japan Schedule Coordination

Japan Schedule Coordination (JSC) is an independent organization established under the Japan Aeronautic Association (JAA) which is a national foundation established for the purpose of promoting the development of aeronautics and astronautics in Japan and enhancing the cooperation with world aerospace communities. JSC is in charge of slot allocation for Narita International Airport (NRT), Tokyo International Airport (Haneda) (HND), Fukuoka Airport (FUK) and Kansai International Airport (KIX), and schedule facilitation for New Chitose Airport (CTS).

APACA (Asia/Pacific Airport Coordinators Association)

Articles of Association (Adopted on 13 November, 2010, modified on 17 November 2015)

Framework, Name

Article 1.
The association is a non profit international association and called: "Asia/Pacific Airport Coordinators Association" (in the following referred to as the Association). The Association is a regional group in Asia/Pacific under the Worldwide Airport Coordinators Group (WWACG). The association shall use the acronym APACA.

Scope

Article 2.
The purpose of the Association shall be:

- serving the common interests of the Members and Associate Members of the Association in all matters pertaining to slot allocation, schedules facilitation and related aviation matters;
- providing a forum for Members and Associate Members to exchange information on slot allocation, schedules facilitation and related matters;
- representing the interests and collective views of its Members to relevant national and international authorities, organizations and institutions;
- promoting and facilitating international cooperation in all matters pertaining to slot allocation, schedules facilitation and related aviation matters;
- promoting the development of professional skills in relation to slot allocation, schedules facilitation and related aviation matters;
- undertaking projects and research to improve standards of coordination and schedules facilitation;
- being a resource in the structuring of all relevant matters concerning aviation and by this strengthening its relevance;
- stimulating interest in slot allocation, schedules facilitation and aviation matters;
- supplying assistance and collective services for Members and Associate Members;
- developing systems and processes.

In pursuing its objectives the Association will undertake the following activities:
